## Services & Programs Guide

## Framing

**Framing is its own art form**, and Frame & Design Arts is here to help you create your own work of art. We

can mat and frame artwork to your specifications and offer advice on color, texture, and material choices to precisely complement the piece you are framing!

Select from hundreds of colors of matboard, including archival-quality matboard, textured suede and velvet matboard, and metallic matboard. Our computerized mat-cutting machine sets the perfect dimensions, and can cut grooves, designs, shapes, and clip-art into the mat itself for a unique, personalized style.

We stock a wide variety of frames and can special-order additional pieces. Choose from our classic wooden frames in a range of thicknesses, shades, and designs, or select a metal frame for a more modern look.

Let our talented framing employees handle your artwork, or take our introductory framing class and learn to do it yourself! Our framing equipment is available for customer use for just \$5 an hour. Customers must take the framing class prior to using the equipment.

Frame & Design Arts is also experienced with framing for professional purposes, including coin matting, patch displays, photograph framing, and other Air Force-related projects. Whether it's a framed retirement gift or an office morale poster, we're the perfect resource for all your squadron and base needs. Remember: shop Offutt!

Our prices are lower than those of local framing shops! If you find a better deal, we will beat it! With quick turnaround and low prices, you can't go wrong at Offutt's Frame & Design Arts!
